

## Architectural Associate

**Bates Architects PC** recently celebrated its 12<sup>th</sup> anniversary in business and recognizes that our success wouldn't be possible without our energetic and creative team of professionals. The firm's dedication to thoughtful designs and great service to our clients ensures our continued success as a regional industry leader. We have exciting projects on the horizon that have allowed us to grow our architectural team. The successful candidates will have the opportunity to work in a comfortable office environment, in the historic City of Frederick, participate in a wide variety of project types, work in all phases of projects and be given the opportunity to assume leadership roles in these projects.

### Qualifications:

- Degree in architecture from an accredited school
- Experience equal to AIA position of "Emerging Professional 2 or 3" working in a professional architecture or interior design firm
- Commercial, Multi-Family & Single Family Residential experience - working in all phases of a project from design through construction
- Programming, Space Planning & Tenant Fit-up experience
- Excellent communication and presentation skills
- Experience coordinating project consultants
- Ability to work on multiple projects with limited supervision in a team environment
- Knowledge of building codes and their proper application
- Technical knowledge of building construction practices
- Proficient using Revit, AutoCAD, specification software, SketchUp or similar rendering software
- LEED credentials a plus but not required

Competitive Compensation and benefits.
